Educating the Michigan Legislature regarding the needs and circumstances of your loved one is essential if you wish to influence legislation and funding sources for their benefit. Issues related to housing and employment are under review and new legislation has been created at the federal level, which may have an impact on services your loved one receives. For this reason, COC and STEP would like to meet with interested families to discuss these issues and create an advocacy group, which in turn can share information with local and state legislators regarding the impact of these legislative changes. If you wish to attend one of these sessions to learn more about these issues, please contact Joyce Franks at, 734-422-1020 or jfranks@cohomes.net by Friday February 8, 2019.
